

Ikenwèn 10.2010

Video: sliding down a slope of a hill of stones for repairing the asphalt road,  
2m 51s

Filmed with a video camera by Khalija Jariaa

The boys cut out along its sides an inner tube of a tractor tire to obtain a long rectangle. While sitting on this piece of rubber they slide down the slope of the hill of stones to repair the asphalt road left beside the house of Khalija's family in Ikenwèn.

There even is a three year old boy trying to climb the hill as seen on the video and who, as seen by Khalija but not recorded on the video, is able to slide down from the top of the hill to the bottom without falling of the piece of rubber.
