Video realized with a digital photo camera

5 year old girl plays with a dung beetle

The dung beetle represents a cow being transported in a pickup car

The girl says she will go looking for other dung beetles because it is better to have several cows in order to obtain more milk and butter because then everything is available in the house and it is not necessary to go and buy things. Her two and a half year old sister with the red trouser says she also wants to go and get a 'cow'.
